Dear Mr Taroni

HART Wildlife Rescue – donation of £1,000

Thank you very much for your kind donation of £1,000.

We are a small hard pressed Charity and voluntary donations have been the key to the successful development of our service, so donations such as yours are very important to us.

We will use your £1,000 to install a new building for our community/volunteering quarters – the building will be used by our 100 volunteers and 4 staff for break times, meetings, training and education. We hope to install the building soon and would be delighted if you and your members came along to see the new premises. I will let Bretta know when the installation is completed.

HART Wildlife rescue are a community charity which provide a rescue, treatment and rehabilitation service for wildlife (including starving hedgehogs, injured owls, orphaned fox cubs, etc.) from all over Hampshire and the surrounding counties. Our main aim is to return the animals in our care back into the wild when they are fit and healthy.

Thank you very much for your donation and support.

Yours sincerely

C.J. Fisher
